

Justfit   
**Ozone Drying  
Locker**

The all-in-one solution for perfect hygiene

for  
shoes

for  
boots

for  
gloves

for  
caps

for  
clothes

## The all-in-one solution

- Adapted to all kind of work garments: clothes, boots, shoes, helmets and gloves
- 3 different widths: 300 (clean industry), 400 (dirty industry) and 500 mm
- Capacity: **4 to 6 complete work garments** (shoulder thickness: 60 mm)
- Equipments: upper shelf (helmet space for VS01400/500 model), rod, dividing panel “clean/dirty” (VS01400/500 model), towel rack, mirror, padlock locking system and name identification tag

## 1st class economical drying

- Warm drying in **2 hours (humid or sodden)** assured by a cooling system and heating element
- **Preserves** the technical properties of the work garments, shoes and gloves (Drying temp < at 45°C)
- Cycle programming through **timer** (optional: Programmable clock for automatic cycles)
- Just more than 1 kW/hour for a complete cycle
- Significant energy saving thanks to the Ecodry mode, Warm air / Room temp air switch

## Total hygiene

- **Disinfection** guaranteed by germicidal lamp with ozone production that totally eliminates bacteria responsible of bad smells and skin diseases (**Cycle duration: 1 h 30**)
- **Deodorization acquires only** via the ozone abilities, without any additional aromatic chemical products
- Sanitizing abilities tested and approved by a **Veterinary Analysis Laboratory**

## World-recognized quality and reliability

- Air distribution box made of 100% stainless steel (304L)
- Welded single frame
- Comply with the NF norm n° D65-760

- Appliance delivered with adjustable stainless steel feet
- 2-year warranty
- Made in France 

## Options

- Boot/glove dryer (1 pair) – including dividing shelf garments/shoes
- Towel rack (15 units)
- Glove holder (stainless steel)
- Sloping roof
- Door locking system by code
- Programmable clock
- Stainless steel feet
